

LEVERAGING AI FOR EDUCATION

A SAFE approach bringing GenAI to schools worldwide — even offline

Artificial Intelligence can transform education by personalizing learning, optimizing teaching, and improving management. However, its demands for computing power, energy, and connectivity risk widening the digital divide rather than closing it.

Based on the **SAFE** approach, the **C3 Micro-Cloud** delivers a powerful suite of fully offline AI tools that promote inclusive, secure, and personalized learning — in any educational context.

Teachers

- A SAFE environment to explore the benefits of AI
- Less time preparing, more time teaching
- More engaging lessons tailored to students' needs
- Content easily adapted to different learning levels

Students

- A SAFE environment to explore the benefits of AI
- Focus and motivation with easy-to-use tools
- Answers tailored to the learning level and cultural context

AI TOOLS FOR EVERYONE - EVEN OFFLINE

The **C3 Micro-Cloud** provides tools and features that simplify teachers' tasks, personalize each student's learning journey, and ensure a safe and effective learning environment. The solution enables more efficient classroom management, with resources that facilitate interaction and individualized student tracking.

Lesson Planner

Teachers save hours of preparation by creating structured, curriculum-aligned lesson plans.

Quiz Generator

Empower teachers to create curriculum-aligned quizzes and tests, making assessment effortless.

Proofreader

Automatically corrects student writing, improving spelling, grammar and overall progress.

Study Planner

Create personalized study plans tailored to each student, supporting differentiated learning.

Topic Explorer

Provide clear, curriculum-aligned explanations in seconds, perfect for lesson prep and student support.

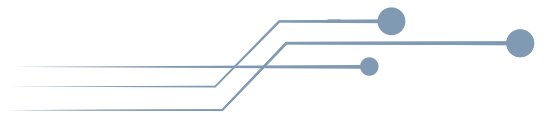

Text Translation

Unlock content for everyone by translating it, empowering both students and teachers.

Chatbot

Provide instant, accurate answers to guide students and teachers, boosting curiosity and independent thinking.

Learn how to make SAFE AI in education accessible and inclusive for everyone — regardless of resources, connectivity, or location, even in offline environments:
